PARTNERSHIP SUMMIT 2018

Charting New India's Global Integration Strategy

24-26 February 2018

APIIC Ground, Harbour Park,
Visakhapatnam, Andhra Pradesh

India is now the centre of attraction for the world economy and very much on the path to become driver of global economy. It has demonstrated its ability to reconstruct new forms of partnership with the world. The Prime Minister's visits to a number of countries across different continents indicate a renewed focus of the present government to redefine foreign policy. In addition, the "Act East" policy; "Connect Central Asia" policy; FTAs with ASEAN; negotiation for RCEP membership; a renewed focus on the neighbourhood policy; etc. further signify the foresightedness and ability to comprehend specific economic priorities in India's foreign economic policy.

Some small but important steps of the current governments show that Indian is heading towards achieving a comprehensive global integration strategy in long term. However, more needs to be done.
